Duncan. We want to go with you!

Soon after that the three friends went to bed.

Gordon was on the bed in Lord McCoy's room. The room was cold and the big, old bed wasn't very nice. It was very dark. The rain hit the window. Gordon remembered the face of Lord McCoy in the picture. After half an hour, Gordon's eyes closed and he slept.

But in his sleep, Gordon saw Lord McCoy once more. He came **towards** Gordon and he laughed. He had a big sword in his hand. Gordon was scared. He wanted to run but he couldn't move. Gordon could see McCoy's white face. It came nearer and nearer. McCoy's sword was over his head now. Gordon wanted to **scream**. He opened his mouth but he couldn't speak.

Suddenly Gordon woke up. His mouth was open and he felt very thirsty. He felt scared, too. Then he laughed. It was only a **dream**. He must forget the stupid stories about old McCoy.

The room felt colder than before. Suddenly, he heard a noise. What was it? Gordon listened carefully. He sat up. It was dark and he could see nothing. But there was a noise. He waited and listened. The noise wasn't there now. He closed his eyes again and slept.

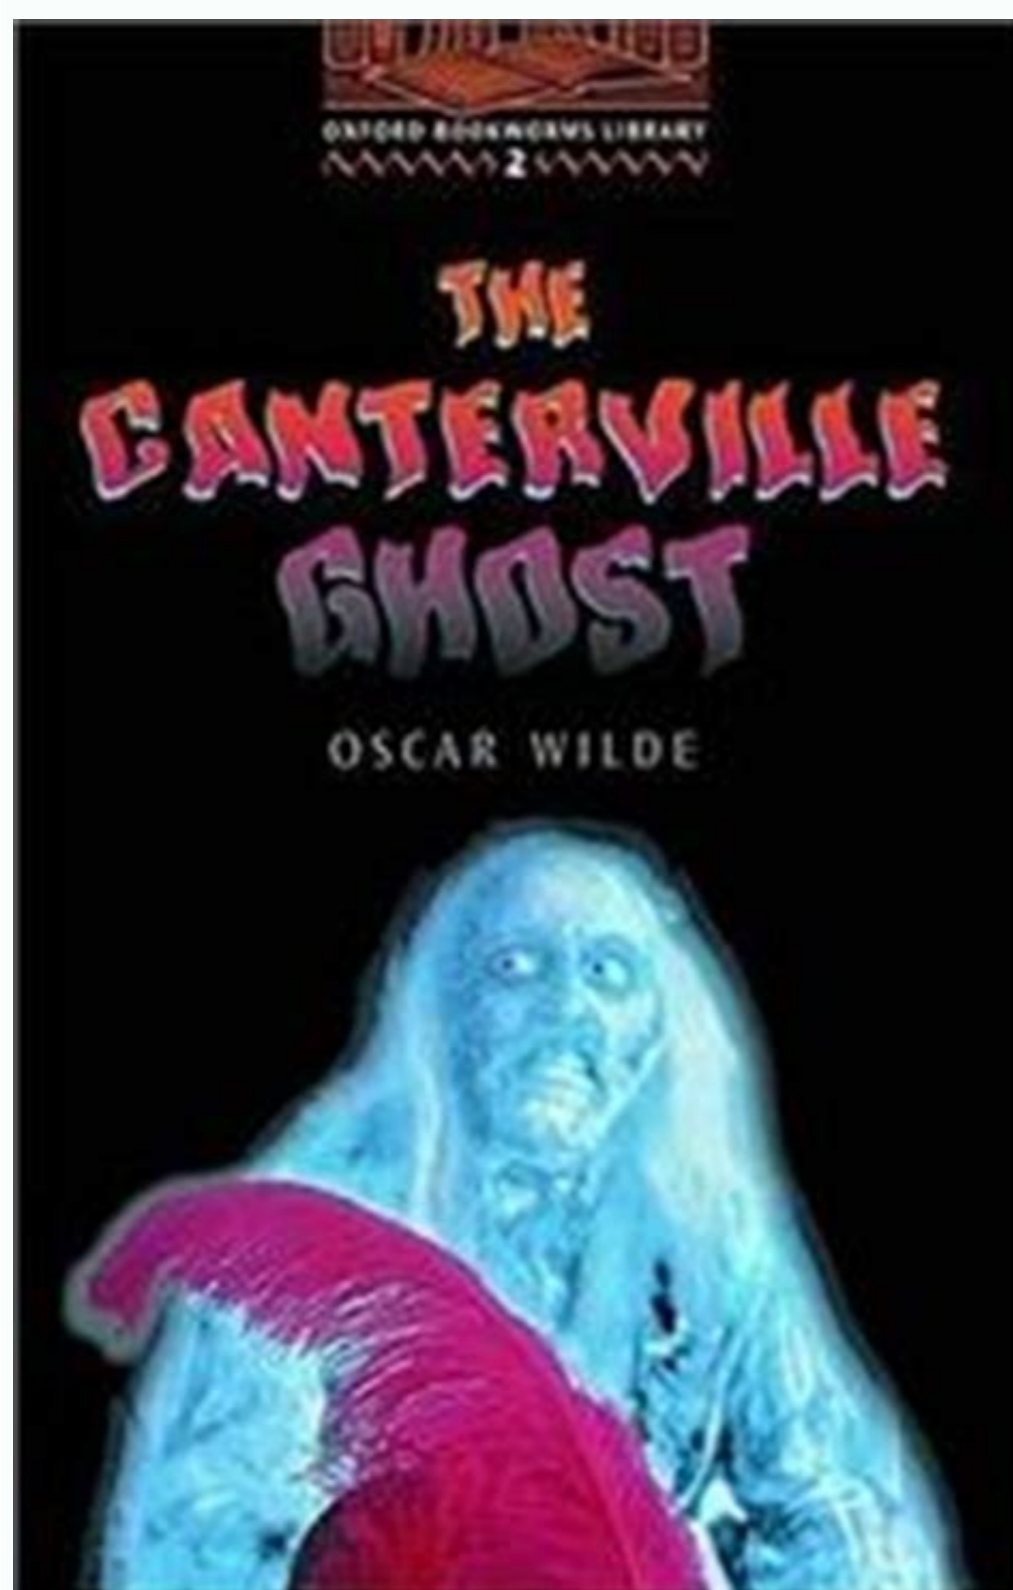

This time, his dream was different. There were three young women in it. One of the women looked at something behind Gordon, screamed and began to run away. Then someone behind him laughed. Was it Lord McCoy's laugh? Gordon woke up suddenly.

Just then, he heard a new noise. This time it came from the door. Gordon sat up and looked towards it. He could

towards nearer

scream to give a loud, high cry because you are afraid

dream pictures that you see in your head when you are sleeping

Does oxford university have a uniform. The canterville ghost oxford university press. The canterville ghost oxford university press pdf. Is there a difference between oxford university and university of oxford.

Main voice: Oscar Wilde. Portrait of Wilde The Irish writer Oscar Wilde in his life has published numerous works: poems, theatrical works, stories and collections of letters. What follows is a report of his literary production. Poetry Ravenna (1878) poems (poems) (1881), of this collection published 750 copies and thanks to the publishing house Roberts Brothers also arrived in the USA. In reality, these were not original compositions: they resumed images and words already used in the past by Byron, Swinburne and also by Shakespeare and were not welcomed with great enthusiasm by critics. [1] He placed a rose and a tiara as emblem, this meant: Catholicism, paganism but also Freemasonry, their possible coexistence, a representation of the triple soul of Wilde that he wanted to represent in the work. The Sphinx (The Sprinx) (1894), printed 250 copies but in the beginning he wanted to print only three: one for the s, one for the British Museum and another for paradise, but the one for the museum it was certainly not to print it. [2] The ballad of the Reading prison (The Ballad of reading Gaol) (1898), the title was Robert Ross himself who suggested it. Here the protagonist is Charles Woodruff who in several ways represents Wilde in prison: the man had killed his love and as Oscar says everyone does the same. The theme is the sin that involves everyone. Yeats thought that he was not so much the message that launched the way it was written: in the form of a ballad. Unlike his previous works on the wicked, a form of revenge is made, but who takes revenge is himself a culprit even. [3] The work expressed Wilde's concern for the inhuman imprisonment conditions. Also in this work, Wilde, makes an involuntary show of good taste "complaining", and giving voice, not to their prison patients, but to concern for the children of the Len iripapap igaprap neozatznesperp amirp ,1981()esecnarf ni(à zathénelf
